

Agribusiness Technology (A15100)

Official Program Description registered with the NC Community College System:

The Agribusiness Technology curriculum is designed to prepare individuals for careers in the agribusiness segment of the agricultural industry. It provides an understanding of basic business concepts and principles as they relate to the agricultural industry.

Students will learn the principles of organization and management in agricultural businesses and the application of these principles in agricultural production. Students will also learn the basic principles of our economic system and government policies and programs relating to agriculture.

Graduates should qualify for a variety of jobs in agricultural businesses such as equipment, feed, and agricultural supply sales, store managers, farm operations, and office managers of agricultural products marketing firms.

Program Learning Outcomes

Upon completion of the Agribusiness program, a graduate should be able to:

- Plan an efficient and profitable agriculture business.
- Identify and treat soil and crop pest issues in the field of agriculture.
- Perform calculations needed in the agriculture industry.
- Use computer skills effectively in the agriculture industry.
- Communicate effectively.

Degree Awarded

The Associate in Applied Science Degree - Agribusiness Technology is awarded by the College upon completion of this program.

For More Information

The Agribusiness Technology program is located in the Applied Technology Division. For more information, call (919) 739-6807 or visit us at our web site at www.waynecc.edu.

Admissions

- A high school diploma or equivalent is required.
- A placement test in English, mathematics, reading and computer skills are required to determine entry-level courses that match individual needs.
- Students are required to demonstrate competency in MAT 070 through the placement test or course completion with a grade of C or better prior to receiving a degree.
