

Human Services Technology (A45380)

Official Program Description registered with the NC Community College System:

The Human Services Technology curriculum prepares students for entry-level positions in institutions and agencies which provide social, community, and educational services. Along with core courses, students take courses which prepare them for specialization in specific human service area. Students will take courses from a variety of disciplines. Emphasis in core courses is placed on development of relevant knowledge, skills, and attitudes in human services. Fieldwork experience will provide opportunities for application of knowledge and skills learned in the classroom.

Graduates should qualify for positions in mental health, child care, family services, social services, rehabilitation, correction, and educational agencies.

Program Learning Outcomes

Upon successful completion of the Human Services Technology program, the graduate will be able to:

- Demonstrate fundamental understanding of human behavior and development from a historical, biological, psychological and sociological perspective.
- Apply principles related to the diversity of people and cultures to the therapeutic relationship.
- Apply practical principles related to the respective concentration in the Human Services profession.
- Demonstrate critical reasoning and problem-solving abilities, communication skills as well as professional and ethical concerns as applied to clinical practice.

Degree Awarded

The Associate in Applied Science Degree-Human Services Technology is awarded by the College upon completion of this program.
