

### Early Childhood Education/Teacher Associate Concentration (A5522B)

Official Program Description registered with the NC Community College System:

Teacher Associate is a concentration under the curriculum title of Early Childhood Education. This curriculum prepares individuals to work with children from infancy through middle childhood in diverse learning environments. Students will combine learned theories with practice in actual settings with young children under the supervision of qualified teachers.

Coursework includes childhood growth and development, physical/nutritional needs of children, care and guidance of children, and communication skills with parents and children. Students will foster the cognitive/language, physical/motor, social/emotional, and creative development of young children.

Graduates are prepared to plan and implement developmentally appropriate programs in early childhood settings. Employment opportunities include child development and child care programs, preschools, public and private schools, recreational centers, Head Start Programs, and school age programs.

#### Program Learning Outcomes

Upon successful completion of the Early Childhood Education/Teacher Associate program, the student will be able to:

- Apply selected theories and concepts of child development to the education of young children.
- Plan and implement developmentally appropriate experiences that stimulate children's development and learning.
- Provide an optimal learning environment for young children.
- Establish and maintain a safe and healthy environment for young children.
- Provide positive guidance young children.
- Communicate effectively with children, co-workers, and parents.
