Hi Bill,

I just wanted to be on the safe side, so I contacted the Department of Education to get their response. Jean Kelly is the representative for North Carolina and her response is below.

Hello Ms. Goodman,

Yes, Wayne Community College is in compliance with Title IV, HEA regulations. According to our records, the institution is fully certified, and its application to participate in Title IV (PPA) expires **03/31/2007**. If you have any further questions, or if SACS would like to contact us with additional information, please feel free to e-mail or contact me at (404) 562-6312.

Ms. Kelly,

Wayne Community College is in the process of going through the SACS Reaffirmation of Accreditation. One of the comprehensive standards ask if we are in compliance with its program responsibilities under the Title IV of the 1998 High Education Amendments. Our response was yes and we attached a copy of the Eligibility and Certification Approval Report and the Program Participation Agreement which states that Wayne Community College satisfies the definition of an eligible institution under the Higher Education Act of 1965. We also stated that our agreement has been approved through **March 31, 2007**.

When we received the offsite review team report, they stated that we were not in compliance. The only thing that I can think of is that the Participation Agreement Letter has the Higher Education Act of 1965 and the SACS Comprehensive Standard has 1998 Higher Education Amendment.

Would you please send me a response that I can give the SACS review team stating that Wayne Community College is in compliance.

Thank you so much for your assistance.
