

## **WCC REVITALIZATION PLAN**

November 2003(revised)

The WCC Revitalization Plan provides annual facilities upgrade program. Creation of a long range program of painting and replacing of carpet and wall coverings, the college is able to maximize its financial investments, maintain its aesthetic appearance, and improve housekeeping efforts, while minimizing disruption to the college's educational mission. The plan is based on anticipated facility repair funding from the Wayne County Commissioners. Based on economic conditions and available local funding, the college will request a portion of its facility repairs budget be dedicated to the implementation of this plan.
