The WORKS Lab is available for CRC test prep or skills upgrade training in WLC 143. The Lab is offered on a first-come first-served basis and is Open Entry/Open Exit, meaning that individuals come to the lab as needed to prepare for the CRC. Some will come to the lab only once or twice while others may attend on a more regular basis to achieve their goals. Instruction in the lab is self-directed with an instructor-facilitator available to assist students. Individuals who need or want more one-on-one assistance may be referred to tutors outside the lab environment. Individuals who have taken the test but wish to improve their scores will also find the lab helpful.

To take the assessments for CRC, pre-register by speaking with the WORKS staff and reserving a seat in a testing session. (739-7004)

Testing Locations: All tests in February will be held in WLC 143.

Testing Times: 8:30am – 12:00pm – February 1, 7, 14, 21 & 28.

12:30pm – 4:30pm – February 2 & 9.

4:30pm – 9:00pm – February 15 & 22.
