

Sustainable Agriculture and Green Living: A Bibliography of Resources in the Erwin Library, Wayne Community College

Scope of the Bibliography:

Internet Resources are completely annotated and have been selected by the Instructional Services Librarian.

Books listed as part of the General Collection may be checked out by any Erwin Library registered patron, faculty, staff or student for twenty-one days, with one renewal. Books listed as part of the Reference Collection should be used within the Erwin Library only.

Though not listed in this bibliography, many relevant digital video titles are available in the *Films on Demand* video streaming resource, which can be accessed and searched using the **WCC Single Search** aggregate database on the Erwin Library webpage at: <http://waynecc.edu/library/>

Similarly, thousands of full-text **Journal Articles** are also available using the WCC Single Search aggregate database from the Erwin Library homepage. These texts may be printed out in the library, or at home, even emailed to your account.

Even if an article is not indexed by any of our databases, it can be obtained by Interlibrary Loan request made to the Erwin Library, either in-person at the Circulation Desk, by telephone at 919.739.6891, or by submitting an online request from the Interlibrary Loan link on the library's webpage.

Library of Congress Subject Headings may be used in a subject search to search the Erwin Library Online Public Access Catalog (OPAC) for more books. The Library of Congress Subject Headings make excellent search terms, and may be typed into the search box of any major database with no punctuation, just spaces between the words.

Internet Resources:

National Sustainable Agriculture Coalition. <http://sustainableagriculture.net/>

"The National Sustainable Agriculture Coalition (NSAC) is the leading voice for sustainable agriculture in the federal policy arena, joining together the voices of grassroots farm, food, conservation, and rural organizations from all regions of the country to advocate for federal policies and programs supporting the long-term economic, social, and environmental sustainability of agriculture, natural resources, and rural communities." – From About page

National Sustainable Agriculture Information Service. <http://attra.ncat.org/>

The National Sustainable Agriculture Information Service offers in-depth publications on production practices, alternative crop and livestock enterprises, innovative marketing, organic certification, and highlights of local, regional, USDA and other federal sustainable agriculture activities. – From main homepage
