**Provide narrative for analysis of program retention data** *(Based on the data, provide a narrative of your analysis of fall to fall retention. Indicate factors that may have affected your retention. State any changes you plan to address for next year that may affect retention.)*

Data shows a 10.6% reduction in retention but it doesn't show the work we put in trying to keep the students. Some students decided that they needed to work a while before continuing their education.

**Provide narrative for analysis of program retention standard/target** *(As a result of the data analysis, indicate changes to the standard or target. Did you meet your standard/target? If you met your standard/target, what percentage would you like to increase your standard/target?)*

We did not meet the standard but we will see numbers increase next year, as some of the students who decided not to return in 19-20 will return in 20-21.
