BOOTS TO BUSINESS

Veterans and military personnel returning from active duty are wonderfully over-represented in entrepreneurship. One in seven veterans is either self-employed or already a small business owner. Roughly one quarter of transitioning service members are interested in starting or buying their own business. One of our most important roles is supporting those men and women who have returned home from active duty and are looking to start a small business. We offer a variety of programs and services specifically designed to do just that.
