CRIMINAL BACKGROUND CHECKS

Affiliating clinical agencies with which the college has contracted to provide clinical experiences for nursing students require students to submit to criminal background check and drug screening prior to participation in clinical experiences at the site. The results of the background checks and drug screen may determine if a student is eligible to enter clinical agencies. Students are responsible for the cost of the background checks and drug screen.

1. Applicants should be aware that a student must be able to enter and/or remain in all clinical agencies to progress within the program. If a clinical site denies a student placement in their facility, the student would be unable to complete the required clinical component of the course. The student will be withdrawn from all NUR courses and will not be allowed to progress in the program.
2. Currently the nursing program uses an online vendor for background checks and drug screening. Information on how to complete the process is included with the letter of acceptance to the program.
3. The background checks and drug screening must be completed by the specified date prior to the start of the semester in which the student enrolls. Failure to complete the process as specified will jeopardize enrollment in the program.

Applicants to the nursing program should be aware that if they have pled guilty to or have been convicted of a felony or misdemeanor (other than a minor traffic violation), the NC Board of Nursing may restrict or deny licensure. The NC Board of Nursing requires criminal history checks for each person applying to practice nursing in the state of North Carolina. Applicants will be charged a fee to offset the cost of the background check.

Cardio Pulmonary Resuscitation (CPR)

Nursing students must obtain current American Heart Association (AHA) – Basic Life Support (BLS) Provider certification prior to the first day of class. Must stay current while enrolled in nursing classes. Note: AHA BLS certification must have included a “hands-on” skills demonstration component to be accepted.

PRACTICAL NURSING READMISSION POLICY

The readmission policy for the Practical Nursing program is as follows:

Any student failing within the first semester of an allied health limited admission program must apply as a new student in a subsequent academic year.

Because of the organization of the learning experiences in the Practical Nursing program, the course sequence may be offered only one time per year; therefore students requesting readmission to the Practical Nursing program will not be able to re-enter until the course is offered again. In addition to the Wayne Community College "Readmission Policy" listed on page 12 of the 2019-2020 Wayne Community College General Catalog, the student requesting readmission is subject to the following requirements.

1. The student must complete the admission process and submit an updated Student Medical History.
2. The student must follow a prescribed program of knowledge and skill development based upon identified deficiencies as recommended by the program faculty and Department Chair.
3. Admission will be awarded on a space-available basis.

Student Success and Retention

Student retention and success are a priority at Wayne Community College. Obstacles to success may include the academic rigor of the program, extracurricular demands or dissatisfaction with your choice of this career path. Job shadowing should be strongly considered so that you are keenly aware of the professional responsibilities and duties associated with your career choice. Extracurricular demands such as full time work schedules may also need to be reduced in order to allow the necessary study time required to be successful. A good support system is also important if you are involved in other extracurricular demands such as providing care for children or elders.

Credit/Clock Hour Conversion Programs

WCC offers some programs that are considered credit/clock hour conversion programs based on federal regulations set by the U.S. Department of Education. These programs fall under this regulation because all the required credit hours are not acceptable or transferable into a two-year degree or college transfer program. If you are enrolled in one of the credit/clock hour programs and you have been awarded the Federal Pell Grant, your award payment may be less than what is indicated on your award letter. The Practical Nursing program is a credit/clock hour conversion program.

WAYNE COMMUNITY COLLEGE NURSING PROGRAM TECHNICAL STANDARDS

Nursing is a practice discipline with cognitive, sensory, affective and psychomotor performance requirements. For purposes of nursing program compliance with the 1990 Americans with Disability Act, a qualified individual with a disability is one who with or without reasonable accommodation or modification, meets the essential eligibility requirements for participation in the nursing program.

Admission to and progression in the nursing program is not based on these standards. Rather, the standards should be used to assist each student in determining whether accommodations or modifications are necessary. Standards provide an objective measure upon which a student and the advisor base informed decisions regarding whether a student is “qualified” to meet requirements. It is the responsibility of the applicant to read the technical standards carefully and to ask for clarification of any standard that is not understood.

If a student believes that he or she cannot meet one or more of the standards without accommodations or modifications, the nursing faculty will determine on an individual basis, whether or not the necessary accommodations or modifications can be made reasonable.

TECHNICAL STANDARDS

Nursing students should possess and be able to demonstrate the following:

1. **Critical Thinking:** critical thinking ability sufficient for clinical judgment. For example, student must be able to identify cause-effect relationships in actual or simulated clinical situations; analyze data; develop or participate in the development of nursing care plans.
2. **Interpersonal Skills:** interpersonal abilities sufficient to interact with individuals, families and groups from a variety of social, emotional, cultural and intellectual backgrounds. For example, student shall establish rapport with patients/clients, families and colleagues.
3. **Communication Skills:** communication abilities sufficient for interaction with others in verbal and written form. For example, collect assessment data, explain treatment procedures, initiate health teaching, document and interpret nursing actions and patient/client and family responses.
4. **Physical Abilities:** physical abilities sufficient to move from room to room and maneuver in small spaces. For example, move around in patient/client's rooms, work spaces and treatment areas; administer cardio-pulmonary procedures.
5. **Gross and Fine Motor Abilities:** gross and fine motor abilities sufficient to provide safe and effective nursing care. For example, move, calibrate and use equipment and supplies; lift, transfer and position mobile and immobile patients/clients.
6. **Auditory Ability:** auditory ability sufficient to assess and monitor health needs. For example, hear monitor alarms, emergency signals, auscultatory sounds and cries for help.

7. **Visual Ability:** visual ability sufficient for physical assessment, performance of nursing procedures and maintenance of environmental safety. For example, observe patient/client responses such as skin color, facial expression and specimen color.
8. **Tactile Ability:** tactile ability sufficient for physical assessment and performance of nursing procedures. For example, perform palpation, functions of physical examination and/or those related to therapeutic intervention, e.g. insertion of catheters.
9. **Emotional Stability and Mental Alertness:** emotional stability and mental alertness sufficient in performing nursing care. For example, maintain a calm and efficient manner in high stress situations with patients/clients, families and colleagues.

EXAMPLES ARE NOT ALL INCLUSIVE

WAYNE COMMUNITY COLLEGE COMMUNICABLE DISEASE POLICY OF STUDENTS

Wayne Community College is committed to assuring that all necessary training and precautions are taken with regard to communicable diseases. The Biohazard Exposure Control Plan and the Pandemic Preparedness Plan of Wayne Community College reflect our efforts to ensure the good health and safety of all employees and students. The College adopts this communicable disease policy for students in an effort to control communicable diseases and the threat of pandemics on campus based upon established rules and regulations of the N.C. Division of Health Services. Employees and employees of contractors or contracted services infected with a communicable disease have the responsibility of reporting this fact to the Director of Human Resources. Students infected with a communicable disease have the responsibility of reporting this fact to the Associate Vice President of Academic and Student Services or the Vice President of Continuing Education, as appropriate.

Communicable Disease shall include, but is not limited to: Chickenpox, Infectious Mononucleosis, Conjunctivitis, Hepatitis A, B & D, Acquired Immune Deficiency Syndrome (AIDS), Aids-related complex (ARC), positive HIV antibody status, Influenza, Measles, Meningitis, Tuberculosis, Whooping Cough, and sexually transmitted diseases.(N.C.G.S. 130A)

Persons who are infected with a communicable disease are expected to seek expert medical advice and are encouraged to advise local health authorities. Local health authorities should offer counseling to these persons about measures that can be taken to prevent the spread of infection and to protect their own health.

Persons who know, or have a reasonable basis for believing, that they are infected with a communicable disease have an ethical and legal obligation to behave in accordance with such knowledge to protect themselves and others. Medical information relating to the communicable disease of a student or employee will be disclosed to responsible college officials only on a strictly limited need-to-know basis. No person, group, agency, insurer, employer, or institution should be provided any medical information without the prior specific written consent of a student unless required by state and/or federal law. Furthermore, all medical information relating to the communicable diseases of students and employees will be kept confidential, according to state and federal law, including the Family Education Rights and Privacy Act.

If a student reports a communicable disease condition, the student may be excluded from the institution until an appropriate evaluation of the student's medical condition can be made. The evaluation may be made by a physician or a health department official and testing may be required if appropriate. Students in any Allied Health program may have additional requirements, as specified in each program's student handbook; therefore, these students should report all suspected communicable diseases.

The final determination of student's ability to remain in school will be made by the Vice President or Associate Vice President based upon professional medical evaluation results and recommendations. If a student is found to have a communicable disease, then the attendance of the student on campus or at any College activity will be prohibited until a satisfactory letter or certificate is obtained from one or more licensed physicians or public health officials stating that the student is not a health risk to employees and other students at the College.

The College's Biohazard Control Plan defines guidelines that will be followed in the event of an accidental exposure to bodily fluids or biohazards. Any such exposure should be reported immediately to the responsible faculty or staff person associated with the WCC activity involving such exposure and to the Student Activities Coordinator and an incident report must be completed.
