

## Permalink "Fix" for Remote Use of Erwin Library Resources (CQ Researcher)

- I. **Permalinks**, labeled in some databases as **Persistent Links** or **Document URLs**, are links to individual journal titles, journal articles, ebooks, or streaming videos, which can be used later to guarantee reaching that resource again without having to search the database again.
- II. Permalinks may be copied or emailed to yourself from the page on which the journal article, ebook, or streaming video is displayed, and then pasted into any sort of document, discussion board or email for later access.
- III. If you **Copy** a **Permalink** from an Erwin Library database, or **Email** it to yourself or your instructor, and, when you or your recipient are using a computer outside the library, that link doesn't work, **you may need to add a proxy prefix** to the Permalink to complete it, so you will be directed to a prompt page to login as a remote user with your Erwin Library barcode number.
- IV. One database that poses this problem, though with an easy fix, is **CQ Researcher**.
- V. To create a complete Permalink using the **Document URL** emailed or copied from this resource:
  - A. First, **Copy** and **Paste** into another open file (preferably in **Notepad** to prevent any format "contamination") the Erwin Library proxy prefix: `https://ezproxy.waynecc.edu:2443/login?url=`
  - B. Then, **Copy** your **Document URL** from the **article** or **email message** and **Paste** it right after the prefix to form the **complete Permalink** which you can **Save** to use later to access the article or ebook again, as in the following examples, the first in an email, the second from the document page itself:

E-mail a Document: CQR - Internet Explorer  
http://library.cqpress.com/cqresearcher/email.php?type=document&key=cqresrre2017021700&

**E-MAIL A DOCUMENT**

Your E-mail Address:   Send me a copy

Recipient's E-mail Address:   
(Separate multiple recipients with a comma.)

Message (optional):  
Add this proxy prefix to the front of the Document URL to create a usable Permalink:  
`https://ezproxy.waynecc.edu:2443/login?url=`

**Summary of this Permalink "Fix":**

Original Document URL from *CQ Researcher* is:

<http://library.cqpress.com/cqresearcher/cqresrre2017021700>

Our Erwin Library proxy prefix is always:

<https://ezproxy.waynecc.edu:2443/login?url=>

Finally, the **complete Permalink** that you will want to save to use later is a combination of the two segments listed above:

<https://ezproxy.waynecc.edu:2443/login?url=http://library.cqpress.com/cqresearcher/cqresrre2017021700>
