

Dental Assisting and Dental Hygiene: A Bibliography of Resources in the Erwin Library, Wayne Community College

Scope of the Bibliography:

Internet Resources are completely annotated and have been selected by the Erwin Librarians.

Other Databases lists stand-alone databases that include materials relevant to dental assisting and dental hygiene. You may access these databases by clicking on the link in this bibliography. Naturally, these resources are included in the Erwin Library homepage's **WCC Single Search** with a keyword or title search; however, if you still wish to go directly to one of those databases after conducting a search in the **WCC Single Search** discovery service, just click on one of the links listed on the right side of your **Search Results List** screen, under the heading **Select Direct Database Links**.

Books includes print and electronic formats. Print books listed as part of the General Collection may be checked out by any Erwin Library registered patron, faculty, staff or student for twenty-one days, with one renewal. Books listed as part of the Reference Collection should be used within the Erwin Library only, and photocopies may be made at fifteen cents a page. Permalink URLs are listed for electronic book titles. Thousands of other ebooks are available from the Erwin Library homepage with a keyword or title search of the **WCC Single Search** discovery service.

Audiovisuals listed in this bibliography in physical media format (i.e. DVD or VHS copies) are owned by the Erwin Library and may be checked out only by a WCC faculty member for up to a week for use in his or her classroom. Also, the WCC Educational Support and Technology Department may be contacted by the faculty member to make a personal, educational copy of the film, which the faculty member may use in any subsequent class presentations instead of having to repeatedly check out the original video recording.

Many more digital video titles on dental topics are available using the **WCC Single Search** discovery service on the Erwin Library webpage. If you wish to access and search via a direct link to any of the library's video streaming databases, a list of **Select Direct Database links** will be found on the right side of your WCC Single **Search Results List** screen. These other available digital video resources in addition to *Films on Demand* include the *Dental Education in Video* and *Nursing Education in Video (Medcom-Trainex titles)* databases, as well as the *Nursing Digital Library* and *Video on Demand (Insight Media titles)*. Only a very small sample of these digital videos is listed in this bibliography.

Dental Assisting and Dental Hygiene: A Bibliography

To search these digital video databases you may use the **Library of Congress Subject Headings** listed in this bibliography as search terms, as well as keywords. The links in these entries are static, or permanent access, URLs, which may also be listed in Moodle class pages. A user outside of the Erwin Library will be prompted to enter his or her Erwin Library card barcode number for access to watch these films. You may click on these links directly, or highlight, copy and paste the URL into your favorite browser or another webpage.

Journal Articles lists a few selected articles from journals available through Erwin Library databases. Thousands of other full-text articles are available conducting a keyword or journal title search using the **WCC Single Search** discovery service from the Erwin Library homepage. These texts may be printed out in the library, or at home, or even emailed to your account.

Journals (Online) lists selected journals available online through the **WCC Single Search** discovery service. These online journals and many more periodical titles are available to be browsed and searched from the Erwin Library webpage using the **Publication Title Search** option of the **WCC Single Search** discovery service. The contents of an entire single issue of a journal may be thus browsed or searched, or a topic search made across the entire contents of that periodical's archives.

Even if an article is not indexed by any of our databases, it can be obtained by Interlibrary Loan request made to the Erwin Library, either in-person at the Circulation Desk, by telephone at 919.739.6891, or by submitting an online request from the Interlibrary Loan link on the library's webpage.

Library of Congress Subject Headings may be used in a subject search to search the Erwin Library Online Public Access Catalog (OPAC) for more books. The Library of Congress Subject Headings also make excellent search terms, and may be typed into the search box of any major database with no punctuation, just spaces between the words.

Internet Resources:

Job Descriptions

U.S. Department of Labor. Bureau of Statistics. "Dental Hygienists." Available online at:
<http://www.bls.gov/ooh/healthcare/dental-hygienists.htm>

U.S. Department of Labor. Bureau of Statistics. "Dental Assistants." Available online at:
<http://www.bls.gov/ooh/healthcare/dental-assistants.htm>

Websites

American Dental Association. <http://www.ada.org/index.aspx>

The American Dental Association is the oldest and largest national dental society in the world. The ADA has grown to become the leading source of oral health related information for dentists and their patients.

American Dental Hygienists' Association (ADHA). <http://www.adha.org/>

ADHA is the largest professional organization representing the interests of dental hygienists. Members enjoy professional support, educational programs, and numerous opportunities for participation in association decision making.

Dental Assisting and Dental Hygiene: A Bibliography

American Dental Assistants Association (ADAA). <http://www.dentalassistant.org/>

“Established over 80 years ago, the ADAA provides continuing education to dental assistants through home study courses, professional journals and local, state and national meetings with educational agendas. It encourages education, registration and certification for dental assisting professionals while providing a network of personal services for its members.” – From History page

North Carolina State Board of Dental Examiners. <http://www.ncdentalboard.org/index.htm>

“Functions of the Board of Dental Examiners include:

- The administration of licensure examinations for dentists and dental hygienists
- The promulgation of rules and enforcement of laws and regulations governing the practice of dentistry and dental hygiene in this state
- The issuance and renewal of licenses to dentists and dental hygienists

Links at: <http://www.ncdentalboard.org/links.htm> are also provided for State Licensure Boards, Regional Testing Agencies, Professional Agencies, United States Government Agencies, and Research Triangle Links for the Raleigh, Durham, Chapel Hill area.”

Other Databases:

A.D.A.M.

<http://cgez.waynecc.edu:2048/login?url=http://www.interactiveanatomy.com/default.aspx?account=NationalLib00NCC&edition=3>

"*A.D.A.M. Interactive Anatomy* online contains the most comprehensive digital database of detailed anatomical images in the world, including illustrated, fully dissectible male and female bodies. The database includes point-and-click identification capabilities of over 20,000 anatomical structures and is peer-reviewed by a team of leading anatomists to ensure anatomical accuracy."

Dental Education in Video

<http://cgez.waynecc.edu:2048/login?url=http://search.alexanderstreet.com/dntl>

"*Dental Education in Video* is a video encyclopedia of dentistry and dental technique, delivering instant online access to hundreds of high-definition videos featuring world-renowned clinicians and educators. It provides hundreds of hours of demonstrations from American Dental Association-approved content partners, together with interviews and lectures, for students and faculty in dental surgery, medicine, oral hygiene, assisting, and nursing."

Films on Demand

<http://cgez.waynecc.edu:2048/login?url=http://digital.films.com/portalPlaylists.aspx?aid=2048>

Films on Demand offers over 20,00 digital videos from a wide variety of academic and vocational producers within the Films Media Group, “the leading source of high-quality video and multimedia for academic, vocational and life-skills content. Films Media Group serves the education community through its four brands: Films for the Humanities and Sciences, Cambridge Educational, Meridian Education, and Shopware.”

Dental Assisting and Dental Hygiene: A Bibliography

STAT!Ref

<http://cgez.waynecc.edu:2048/login?url=http://online.statref.com/Default.aspx?grpalias=NCCS>

STAT!Ref provides online access to 61 allied health ebooks ranging from reference sources, such as the *Merck Manual* and *Taber's Cyclopedic Medical Dictionary*, to ebooks on specific subjects, such as *Primary Preventive Dentistry* and *Labor and Delivery Nursing*. Click on the **Bookshelf link** from the *STAT!Ref* homepage to browse through available titles. From the Erwin Library homepage, you may also conduct a title search for a specific ebook available in *STAT!Ref* by using the search box under the **Publication Title Search tab**. Also available from the *STAT!Ref* home page are *ICD Diagnosis and Procedure Code* lookups, *Stedman's Medical Dictionary*, *MedCalc 3000*, and the *APhA DrugInfoLine*.

Testing and Education Reference Center (TERC)

<http://cgez.waynecc.edu:2048/login?url=http://infotrac.galegroup.com/itweb/gold81941>

The *Testing and Education Reference Center (TERC)* includes e-books, practice tests, and other materials that will prepare you for exams. To use this resource, follow the link above and then choose *Testing & Education Reference Center*. If you have not visited *TERC* before, you will need to register as a new user, choosing your own username and password. After registering, you may view any of the *TERC* materials, and save any practice exam results in your own account.

“The job of the dental hygienist is just as hands-on as any dentist’s—and it offers an outstanding springboard for a career in the healthcare and dental fields. This program shows what a dental hygienist can expect as far as training, duties, and compensation, while outlining the personal qualities and people skills that any successful DH should possess. Featuring interviews with experienced hygienists and those who train them, the program highlights the cleaning and examination procedures a DH will perform and the special rapport he or she must be able to establish with patients. Students are advised to prepare for a dental hygienist career by excelling in high school biology courses and volunteering at clinics and hospitals. A viewable/printable instructor’s guide is available online. Correlates to national and state board certification standards. A Meridian Production. (22 minutes)”
